INDUSTRIAL VISIT AT TCS- REPORT

FOG COMPUTING

A highly informative seminar on “FOG Computing” was organized by TATA Consultancy Service on 19 February 2016 at 10.00 AM in TCS conference hall. Mr. Joby Joseph, had given a complete picture about the concerned topic with clear explanations and practical guidance. The talk was very much interesting as it had a spontaneous interactive mode placed on.

FOG computing is one of the emerging technology that uses one or a collaborating multitude of end user clients or near user edge devices to carry out a substantial amount of storage and communication.
GREEN IT & ENVIRONMENTAL SUSTAINABILITY

Very interesting seminar on “Green IT & Environmental Sustainability” was organized by TATA Consultancy Service on 19 February 2016 at 11.00 AM in TCS conference hall. Mr. Manoj Thomas, had given a complete picture about the concerned topic with clear explanations and practical guidance. The talk was very much interesting as it had a spontaneous interactive mode placed on.

TCS recognizes environmental impact and climate change among the key sustainability challenges to businesses and society; affecting economic stability, ecology and vulnerable communities. TCS is committed to assume a leadership role in environmental protection and climate change mitigation while pursuing our business aspirations and enhancement of shareholder value.
