

# FORESTRY CLUB TKMCE

## PROGRAMME REPORT 2020

### ● INAGURATION OF FORESTRY CLUB

Our earth has started to face an extinction. Climate breakdown, pollution, environmental degradation, resource depletion are some of the causes of this. Amazon rainforest on fire loosing a part of our "lungs of the planet" we seriously have to think on fixing these problems. The natural solution we can rely on is planting more trees. They can easily fix our broken climate by locking the carbon emissions. FORESTRY CLUB TKMCE launches 'MISSION 365' as part of ആരംഭം. An action plan exclusive to students of TKMCE to plant 365 saplings in a year and monitor its progress on a monthly basis. Join and take part in paving a way towards a greener and more sustainable future.

TKMCE FORESTRY CLUB'S 1st initiative, MISSION 365 was proudly inaugurated by our former principal ,Dr.S Ayoob (Pro-Vice chancellor, KTU)by handing over the 1st sapling to Dr.T A Shahul Hameed, Principal and to college union chairman, Ajmal as a part of Aarambham on Sept 25th,2019.

- IET (Institute of Engineers India) Chemical chapter was inaugurated by Shri. George Ninan, Managing director, TTPL, by handing over a sapling to Prof. Femina A (HOD) and John Kurian (Asst. Sec).

- **ECHO PROJECT ORIENTATION**

World Wide fund(WWF) on achieving the goal of Nature conservation and environment protection through many environmental programs, volunteer environment program(VEP) is one which translates environmental awareness into action along with other programs exclusively for college students. Under VEP ,an action packed model, targeting college students, to connect to the environment and to take actions towards a sustainable future, ECHO (Building Environment Conservation Heroes) was launched.

ECHO 2018 theme was 'Plastic pollution ' and ECHO 2019 was on 'Responsible Consumption and Production ' . FORESTRY CLUB TKMCE conducted a two hour orientation program on attaining sustainable development goal no:12, on 18th October, 2019 as a part of ECHO 2019.The session also included facts on the pollution rates, plastic usage etc. It was a very effective session in finding solutions for a better future.

- **A Tree for Me**  
**World Environmental Day**

As we celebrate Environment day this year, we know how important ecological balance is essential for human existence as the pandemic has bought a turn of events. Sitting at home alone won't make you a hero, healing the world to make it a better place to live in is our duty. Forest Club TKMCE had always been in forefront for connecting with nature and promoting environmental awareness. Here is your chance to join hands in this movement and show solidarity towards Earth's well-being.

Plant a sapling and be a part of Tree count Mission 365, an environmental diversity enhancing programme and this is the perfect boost for our environmental protection movements.
