

14. ENVIRONMENTAL HEALTH AND SAFETY POLICY

POLICY

TKM College of Engineering is committed to provide a safe, secure and healthy environment for all faculty, staff, students, and visitors.

PRINCIPLES

Good environmental health and safety practices are the responsibility of every faculty member, staff, student and visitor at TKMCE. This responsibility cannot be transferred or delegated.

TKMCE shall make all reasonable efforts to:

- Protect the health and safety of faculty, staff, students, visitors, and the surrounding community.
- Provide safe workplaces - academic, research and administrative.
- Provide information and training to faculty, staff, students and visitors about potential environmental, health and safety hazards.
- Identify and correct environmental health and safety hazards, and encourage the reporting of hazards and safety-related incidents.
- Comply with applicable environmental health and safety laws, regulations and consensus standards.
